

COMPANY PROFILE 2020

Activities

Agriform is a co-operative of dairies located in the North-eastern area of Italy. Founded in 1980, the “Agriform group”, counting a total of 8 dairy members (supported by over 1.000 farmers), is one of the largest producers of **Grana Padano** cheese and the main producer of **P.D.O.** cheeses of the Veneto region. Agriform also owns two **Parmigiano Reggiano** dairies and has shares in other co-operatives producing **Parmigiano Reggiano**.

Dimension

In **2019**, Agriform has achieved a turnover of over **174,000,000 Euro** by a volume of almost 20,000 tons of cheese (in wheels, cuts and grated). **53,5% of Agriform results** (over 93,000,000 euro) **are due to the exports** as 9.760 tons of cheese were exported worldwide to 56 countries. **Grana Padano** represents 63% of Agriform turnover and 62% in quantity (corresponding to about 330,000 distributed & pre-packed wheels).

Annually, Agriform members **produce** more than 280,000 wheels of **Grana Padano**, about 540,000 wheels of **Asiago Fresco and Stagionato**, 340,000 wheels of **Piave** and 18,000 wheels of **Parmigiano Reggiano**.

Besides its own products, Agriform distributes and exports a full range of traditional **PDO** (Protected Denomination of Origin) cheeses.

Facilities

The headquarters are located in Sommacampagna (A4 motorway exit, close to Verona) and have two maturing facilities with a capacity of over 200,000 cheeses. Agriform has a packaging centre in Sommacampagna for grating as well as vacuum & gas-flushed packing of wedges of **Grana Padano** and several **Veneto** or **DOP** cheeses. In 2016 a modern packaging centre was opened in Busseto, near Parma, where **Parmigiano Reggiano** is produced, cut or grated, and packed. Considering both premises, Agriform has state of the art grating machines for freshly grated hard cheeses with a production capacity of more than 16,000 tons per year.

Production & Distribution

The 8 members of Agriform co-operative process more than **300,000 tons of milk per year** (nearly 30% of the milk production from the Veneto region) into hard and semi-hard cheese.

Grana Padano is Agriform's main product: 160,000 tons of milk are yearly processed into about 280.000 wheels (approx..10.900 tons) of Grana Padano cheese. The Agriform group is the largest producer of Italian **Asiago**: over 7.300 tons produced by their members Latterie Vicentine, Trissino and Lattebusche.

- **Grana Padano** – Agriform sales: almost 12,300 tons in 2019. Agriform selects its best wheels among those aged for over 20 months, known as Grana Padano “Riserva” and distributes it under its mark “**Stravecchio Oro del Tempo**”. This name has worldwide recognition as the best mature Grana Padano. “**Twist & Grate**” and “**Twist & Flake**” are among the company's most innovative products: **one-way-plastic graters** for Grana Padano freshly grated or flakes.
- **Asiago** – Agriform sales: over 1,300 tons in 2019
- **Parmigiano Reggiano** – Agriform sales: over 2,600 tons in 2019
- **Montasio** – Agriform sales: almost 150 tons in 2019
- **Monte Veronese** – Agriform sales: over 200 tons in 2019
- **Piave** - Agriform sales: almost 290 tons in 2019
- **Provolone, Gorgonzola, Pecorino Romano** and other fresh cheeses like **Mascarpone** are part of the export range.

Quality

In 1998, Agriform obtained the UNI EN ISO 9002 quality system certification. Since September 2004, it has had CSQA certification, obtaining the **UNI EN ISO 9001:2015** certification. Finally, Agriform obtained the **BRC/IFS certification (A & Higher level grade)** in 2008 for the Sommacampagna plant and in 2017 for the Busseto plant.
